

Compliance indicator: **0.0%**

Overview

- **Total questions:** 65
- **Yes:** 0
- **No:** 0
- **Unsure:** 0
- **Unanswered:** 65

Compliance by Section

Actions required

No actions were triggered based on your current responses.

How results are calculated

- Each "Yes" contributes positively to the overall indicator.
- "No" and "Unsure" flag potential gaps and generate recommended actions.
- Unanswered questions are not treated as compliant.

Limitations and Disclaimer

This tool provides a high-level indication of potential work health and safety (WHS) compliance gaps based solely on the responses entered by the user. It is intended as a guidance tool only and does not constitute legal advice, a formal compliance audit, or certification of regulatory compliance.

The results generated by this tool depend entirely on the accuracy and completeness of the information provided by the user. Workplaces may have additional obligations under applicable legislation, regulations, codes of practice, and industry standards that are not fully captured by this questionnaire.

While reasonable care has been taken in the development of this tool, TMEC and Prensa make no representations or warranties regarding the completeness, accuracy, or applicability of the results generated.

To the maximum extent permitted by law, TMEC and Prensa accept no liability for any loss, damage, cost, or consequence arising from reliance on the outputs, recommendations, or information produced by this tool. Users remain responsible for ensuring compliance with all applicable work health and safety legislation and should seek professional advice where necessary.
